✓ 16. [REDACTED] LIAISON Ray Copson, Congressional Research Service, Library of Congress, called to invite any interested Agency representatives to a Library of Congress seminar on Rhodesia. The seminar is to be held from 9:00 a.m. until 11:30 a.m. on 25 April and will feature two university professors who will speak briefly on the subject. Following that, a discussion will be held in which all interested parties could participate. State and DoD are also invited according to Copson. I thanked him for the invitation and advised CSS about it.
